

Web Developer Internship
50%/100%

About the INTERNSHIP

The selected intern will work jointly with our development team in order to mainly improve the web toolkit internally used for managing all the aspects of our business activity. Based on emerging needs and/or the particular skills that the intern possesses she/he could also be inserted in more complex developments related to our core business.

About the INTERN

For our internship position we are looking for young motivated people who have just finished their academic studies or they are close to finish them.

Our developments are mainly focused on the Java realm, with strong emphasis on the responsiveness. Therefore Javascript is a must and to be familiar with framework such as Angular.js or React.js is a plus.

We seek for open-minded people who want to experience the work in an international group with a wide variety of products mostly related to the banking and financial area.

About BEST VISION Solutions Ltd.

Best Vision Solutions Ltd. is internationally known for the suite BEST, our mature and proven core application system for private, commercial and universal banks. Being flexible, modular, secure and robust, BEST is a highly customizable product, easily adaptable to the continuous evolution of the regulatory environment as well as to the new and increasing demands of the financial market.

Best Vision Solutions Ltd. is a specialized producer of last-generation software solutions, based on Web and Java technologies, particularly concerning Internet banking and front office applications.

The homonymous Best Vision houses are focused on reliability, high level of skills, clearness and careful analysis of clients' needs. Their mission is to be your development partner!

The Best Vision houses also closely work in cooperation with the strategic implementation partner, and supplier of outsourcing services, Best Vision Services Ltd., another company of the Best Vision Holding A.G.

With their offices located in Geneva, Zurich and Lugano, the homonymous Best Vision houses are the providers of high quality software to banks and financial institutions in Switzerland and abroad.

BEST is the result of all the expertise by Best Vision Ltd. Thanks to its modularity, flexibility, security and robustness, BEST is a very innovative financial suite on the market.

Applying for the internship

If interested, please send candidacies (CV) to hr@bestvision.ch, citing the codeword "Stage 2018", by the end of April 2018.
