Sally Campbell is a 32-year-old actress from London, but right now, she's living in Paris in a flat that overlooks the Seine. Sally's mother is French, which means Sally can speak the language perfectly. Sally is very talented. She acts in films, but she can also sing and dance brilliantly and she currently has a leading part in a French musical. She can also play the guitar very well. In her spare time, Sally likes to relax at home by watching romantic films. She has no plans to return to Britain.

Tom Hammond is from Glasgow, but he lives in New York. He's 18 and he's a music student. Tom can play the piano and the guitar very well. He also writes songs with his friend John. Tom writes the music and John writes the lyrics. When they're happy with a new song, they perform it to students at the college. They love to play for an audience and they want to be in a big band. When he isn't composing, Tom downloads his favourite music from the Internet.

Hannah Brown is a writer. She's from Manchester, but she lives in Italy. Hannah is 25 and likes writing romantic novels. Her ambition, of course, is to be a published writer, so she writes every day for at least four hours. Her favourite time to write is early in the morning, but she sometimes works late at night too.

In the afternoons, Hannah works as a waitress in a café. She doesn't really enjoy this part of her life, but she needs the money to stay in Italy.

Famous Scientists: The life of Marie Curie

1 Marie Skłodowska was born in Warsaw, Poland in 1887. She was one of the five children. Mary's nickname as a child was "Manya". Her parents were teachers, but they were poor.

2 Mary was a very clever child, but in Poland at that time girls didn't study at university. Her sister, Bronya, lived in Paris, so Marie moved there too. She started at the Sorbonne University and studied physics and mathematics.

3 At the Sorbonne University, Marie worked with the scientist Pierre Curie. They married in 1895 and she changed her surname Skłodowska to Curie. Marie and Pierre discovered the element radium in 1898.

4 Pierre Curie died in 1906. Marie started teaching at university. She was the first woman professor at the Sorbonne. She was also the first person to win two Nobel prizes.

5 In the 1930s Marie was very ill because she worked with radioactive radium. She died in 1934.
