

# Specific measures for innovative startups

A coordinated support and a set of specific measures for every phase...

...in order to make Ticino an attractive place to develop and grow an innovative startup.

### Coordinated access to services

AGIRE provides information and networking support.

### Office spaces and networking (Tecnopolo Ticino)

provided at early stage by the incubators (e.g. USI Startup Centre) and, subsequently, by the *Tecnopolo Ticino* located in Manno.

### Boldbrain Startup Challenge

An Acceleration programme for innovative *early-stage* start-ups. A 120'000 fr. Jackpot is awarded to the best five projects enrolled.

### Privileged access to national programmes

for the *Boldbrain Startup Challenge* programme finalists.

### Incentives for Innosuisse startup coaching

Thanks to the Economic Innovation Law, grants are awarded to companies that have been accepted by the *Innosuisse* start-up coaching programme.

### Investor Networks

'Canton Startup Day', TiVentures fund and other initiatives aimed at developing a network of investors (Business Angels, Venture Capital or other funds) and their connection to the startup world.

### Fiscal measures

To promote innovative startups.

### Investment coaching

Coaching activities on how to approach investors.

### Public subsidies

Startups that successfully take part in national innovation programmes and demonstrate a solid customer base can be financially supported in their innovation projects.
