

Pesca TI mobile APP

In order to fish in Canton Ticino, it is mandatory to obtain a fishing licence and to fill out the catch statistics. As an alternative to the paper booklet, the Canton offers the possibility of fulfilling this obligation by means of the Pesca TI mobile application, which anglers can install on their device. The application is available in Italian, French, German and English.

Why download the app?

- **Flexibility:** possibility of obtaining a fishing licence 24/7 without having to go to a counter
- **Efficiency:** faster and more immediate data collection
- **Security:** no risk of losing the licence and automatic data transfer to a new smartphone
- **Innovation:** modern tool with many additional functions
- **Sustainable:** used energy and resources for producing paper booklets
- **Reduced costs:** no more mailing and transcription costs for the booklets the end of the season

How to get the digital licence

Download the Pesca TI mobile APP

App Store

download link

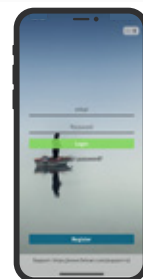

Google Play

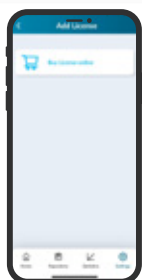

download link

2. Login in Pesca TI

For all new users: register in the application with a valid email address where you will receive an activation email
